<b>LN0075-5</b>	MacIntosh Software/ Hardware	<i>Circletime Tales Deluxe (MAC)</i>	Introduces and reinforces pre-literacy concepts using nursery rhymes and songs familiar to many children. This program emphasizes listening to and learning basic concepts such as opposites, directionality, colors and counting.
<b>LN0089-1</b> <b>LN0089-2</b>	Adaptive/ Assistive Technology	<i>Instant Access Overlays Thinking Things I (MAC)</i>	Preprinted overlays to be used on Intellikeys for Thinking Things I (Edmark) simply place the overlay on Intellikeys and it automatically works when you use the software. Disk also includes optional overlays with special features.
<b>LN000090</b>	Adaptive/ Assistive Technology	<i>Instant Access Overlays Sammy's Science house (MAC)</i>	Preprinted Overlays to be used on Intellikeys for Sammy's Science House (Edmark) simply place the overlay on Intellikeys and it automatically works when you use the software. Disk also includes optional overlays with special features.
<b>LN000091</b>	Adaptive/ Assistive Technology	<i>Instant Access Overlays Broderbund's Living Books (MAC)) Set 2</i>	Preprinted Overlays to be used on Intellikeys for broderbunds Living Books (Set 2) simply place the overlay on Intellikeys and it automatically works when you use the software. Disk also includes optional overlays with special features.
<b>LN000094</b>	Adaptive/ Assistive Technology	<i>Intellitools Coloring Book Animals (MAC)</i>	Intellitools Coloring Book is an easy to use coloring program which can be used with a mouse, with Intellikeys overlays (included) or with one or two switches plugged into Intellikeys. Software can even be accessed using switches and an overlay, allowing for peer interaction in coloring activity.
<b>LN000095</b>	Adaptive/ Assistive Technology	<i>Intellitools Coloring Book-Holidays (MAC)</i>	Intellitools Coloring Book is an easy to use coloring program which can be used with a mouse, with Intellikeys overlays (included) or with one or two switches plugged into Intellikeys. Software can even be accessed using switches and an overlay, allowing for peer interaction in coloring activity.
<b>LN000097</b>	Adaptive/ Assistive Technology	<i>Ready-Set Ups for Co-Writer</i>	Ready-Setups for Co:Writer is a software which allows user access through a variety of input sources including alternate keyboards, switches, scanning (visual and auditory).
<b>LN000103</b>	Computer Software	<i>Theme Weavers: Animals</i>	All the activities in the Theme Weavers involve animals from writing pet poems to using snails as units of measurement. We've provided completed activities and lesson starters for an array of early learning subjects, including math, language arts, social studies, science, and art.
<b>LN000117</b>	Computer Software	<i>Overlay Maker For Windows &amp; MacIntosh</i>	Computer Software All Levels. Overlay Maker is a program that allows you to create your own overlays for Intellikeys.

<b>Category</b>	<b>Type</b>	<b>Title</b>	<b>Annotation</b>
<b>LN000118</b>	Computer Software	<b><i>Overlay Maker For Windows &amp; MacIntosh</i></b>	Computer Software All Levels. Overlay Maker is a program that allows you to create your own overlays for Interlikeys.
<b>LN000119</b>	Computer Aid	<b><i>IntelliKeys USB Keyboard</i></b>	The IntelliKeys USB Keyboard works in conjunction with interchangeable overlays. Each overlay has a keyboard layout printed on it. Pressing a Key on the overlay sends desired information to your computer. The Keyboard senses what overlay you are using automatically.
<b>LN000120</b>	Computer Aid	<b><i>IntelliKeys USB Keyboard</i></b>	The IntelliKeys USB keyboard works in conjunction with interchangeable overlays. Each overly has a keyboard layout printed on it. Pressing a Key on the overlay sends desired information to your computer. The Keyboard senses what overlay you are using automatically.
<b>LN000121</b>		<b><i>IntelliTalk II</i></b>	Intellitalk II is a powerful interactive talking word processor from Intellitools. It includes a full range of text and speech options: in addition to speech and text, you can add pictures to documents, thereby providing support for beginning readers. It also includes many features that enable you to make reusable worksheets, or templates for students.
<b>LN000123</b>		<b><i>IntelliPics Studio</i></b>	IntelliPics Studio is a multimedia presentation, drawing, and painting program. It is designed for students whose academic level ranges from preschool through middle school. It is also a powerful authoring tool for teachers who wish to design interactive story books, quizzes, and learning projects for students.
<b>LN000125</b>	Adaptive/ Assistive Technology	<b><i>Reading Pen</i></b>	Reading Pen will read or spell a wide variety of printed English text. Amplification is done through built in Speaker or through the earphone. The volume, pitch, and speed of reading voice can be adjusted to suit your specific needs.
<b>LN000126</b>	Adaptive/ Assistive Technology	<b><i>Reading Pen</i></b>	Reading Pen will read or spell a wide variety of printed English text. Amplification is done through built in Speaker or through the earphone. The volume, pitch, and speed of reading voice can be adjusted to suit your specific needs.
<b>LN000128</b>		<b><i>Draft: Builder</i></b>	Draft: Builder is a tool to help you gather, organize, and synthesize information to complete a draft. If you are new to Draft: Builder, work through the Tutorial first to become familiar with Draft: Builder capabilities. Refer to the User Guide after you are familiar with Draft: Builder to find specific information about program functions and features.
<b>LN0130-1 LN0130-2 LN0130-3</b>		<b><i>IntelliKeys USB Keyboard</i></b>	The IntelliKeys USB Keyboard works in conjunction with interchangeable overlays. Each overlay has a Keyboard layout printed on it. Pressing a key on the overlay sends the desired information to your computer.

LN0131-1 LN0131-2 LN0131-3		<i>IntelliKeys Overlay Maker Mac, Windows 2000</i>	Overlay Maker is a software program that gives you the power to design your own custom overlays to put exactly the face you need on Intellikeys and to change that face whenever you want.
LN0132-1		<i>IntelliPics Studio</i>	IntelliPics Studio is a multimedia authoring program for students and teachers. Although it is simple to use, its powerful authoring features allow users to create a diverse range of activities from coloring books story books, and games, to animated presentations and multimedia slide shows. Excellent for all students including those with physical or cognitive disabilities.
LN0133-1 LN0133-2 LN0133-3		<i>IntelliMathics</i>	IntelliMathics is an interactive, talking, problem solving tool for on-screen math manipulatives. It is designed for students whose academic level ranges from kindergarten through elementary grades. It is also a powerful authoring tool for teachers who wish to design math activities for their students.
LN0134-1 LN0134-2 LN0134-3		<i>IntelliTalk II</i>	IntelliTalk, the powerful, interactive talking word processor includes a full range of text and speech options. It also includes a host, of exciting authoring features you can use to design writing activities, quizzes, learning activities, and much more.
LN0135-1 LN0135-2 LN0135-3		<i>IntelliKeys Overlays/Classic or USB</i>	Pre made overlays for IntelliKeys Keyboard including dinosaur game making change tangrams, probability, geoboard fraction bars, NE States, heart diagram, IntelliTalk II ABC overlay, decimal grid, decimal blocks, base ten attributes blocks, basic early concepts, books, reports and study, intellicritters, intermediate overlay, basic paint.
LN0136-1 LN0136-2 LN0136-3		<i>Andrea Net Set NC50</i>	Improves PC Voice Applications, Internet telephony videoconferencing, speech recognition, interactive gaming.
LN000155	Manipulative Material and Activities. Manual Tech Guide. Adaptive/ Assistive Tech.	<i>Go Talk</i>	Go Talk is a communication and education tool that records speech and plays it back with a touch of a button. As the name implies, Go Talk can be taken anywhere: school, work, home, playground. It's light, rugged and easy to use. Go Talk is powerful. Six minutes of recording time is divided among 36 messages. How do we get 36 messages when there are only nine message buttons? There are four levels, and each level can have nine recorded messages. The user recognizes the intent of each recorded message by the pictures of words on a slide-in overlay. When each picture is touched, its message is played.
LN000210	Computer	<i>NEO by Alpha Smart</i>	NEO is easy to use and portable. Like the DANA can write edit and store text quickly. It is light weight and has a long battery life.
LN000211	Computer	<i>DANA by Alpha Smart</i>	DANA is a versatile laptop for students. It combines the convenience of a Palm-powered device with the ergonomics of a laptop. It is easy to use and has a long battery life.

MF000013	Adaptive/Assistive <i>Technology</i>	<i>Super Hawk</i>	The Superhawk has a highly sensitive touchpad. It also has alterable dimensions, level changing, message buffer, and game commands. Superhawk also has auditory scanning with options: digital speck, 4 single switch inputs and 4 relay outputs. New features include an LCD screen, a view mode to see what is programmed into a page or cell and see how much memory is available. It also has upgradeable memory.
MF 00014	Adaptive/Assistive <i>Technology</i>	<i>Hawk</i>	The Hawk is an easy and quickly programmable augmentative communications device employing digital voice technology for high quality, natural speaking voice output. A built-in microphone allows the recording of up to 5 seconds worth of digital speech into each of the nine selection areas. The Hawk's weight and hand portability make it suitable for field trip activities.
MF000015	<i>Kit</i>	<i>ASHA Seminar School Reentry Following Traumatic Brain Injury.</i>	This document is designed to guide school staff in their development of IEPs for students with TBI.
MF000026	Adaptive/Assistive <i>Technology</i>	<i>Whisper Wolf</i>	Whisper Wolf is a fully operational user programmable MEGA WOLF which also provided auditory scanning and ingle switch selection. It uses synthesized (robotic) voice. For users able to point with approximately 6 ounces of pressure. Includes 18PP. demonstration on vocabulary, complete with picture overlays, customized vocabulary for school, and 2 additional memory areas for programming. Overlays and power adapter.
MF000026	<i>Book</i>	<i>Pocket guide to Assessment in Speech Language Pathology.</i>	This is a pocket guide resource book that summarizes basic information on disorders of communication and specifies steps involved in assessing them.
MF000027	<i>Book</i>	<i>Pocket Guide to Treatment in Speech Language Pathology</i>	The pocket guide gives the essences of treatment in a step by step form that promotes easy understanding and ready reference just before beginning treatment.

<b>MF000034</b>	Book	<b><i>The Linda Mood Phoneme Sequencing Program for Reading, Spelling and Speech (LIPS)</i></b>	This major revision of the popular Auditory Discrimination in depth (ADD) program gives you the tools to develop the phoneme sequencing ability that research documents as the best single predictor of success in learning to read and spell. The LIPS clinical version includes a trainer's manual, research booklet, overview video tape, audio cassette, 15 colored felts, 1 set of nose and ear felts, 1 set of 24 colored plastic blocks, 1 set of letter tiles and 1 set of 5 static cling letter-symbols and mouth pictures.
<b>MF000061</b>	Book	<b><i>Building Communicative Competence with Individuals who use Augmentative</i></b>	This book signals a renewed interest in the topic of communicative competence for AAC users. It provides the AAC field with strategies, tools and approaches that are more sophisticated than those used in the past.

TB000006	Computer Software	<i>The Cruncher</i>	The fun and easy way to learn how to create and use spreadsheets and graphs. MAC/WIN CD-ROM 5 pack set- restricted to FDLRS lab only.
TB000009	Book	<i>Math Sequences</i>	3 ½ Discs for MAC Drill & Practice for grades 1-8 in the following math operations : number readiness, addition, subtraction, Multiplication, Division, Laws, , integers, fractions, percents, equations measurement. Includes T-Guide.
TB000013	Game	<i>Super Solvers Outnumbered</i>	Designed for teachers who wish to reinforce students basic math, problem solving & thinking skills in a game format. The program combines situational math, in the form of word problems, with basic operations as integral elements of the game. Students refer to colorful charts, graphs, maps & other organized data to figure out the word problems. As students progress they also use pattern recognition & deductive reasoning. MAC
TB000012	Computer software	<i>Number Maze</i>	Provides practice in basic math skills for children 5-12. To move through a maze, the child must answer numerical & word problems that involve counting, adding, subtracting, multiplying or dividing whole numbers. Each child's progress may be monitored through statistics that are tracked automatically. Includes "custom maze," a module in which parent and teacher customize specific curriculum or special needs of each child. MAC
TB000014	Computer Software	<i>Touch Money</i>	Sequential six lesson method introducing a money-counting technique by using Apple II software. Includes a teacher's guide, activity sheets, a deck of Touch Money cards, and software disk (3 1/2"). System requirements: Apple IIe, IIc, IIcI, IIGSm or LC MAC with a Aple emulation card; 128k single disk drive, Echo II speech processor, supports IIGS mouse and single switch; Touch Window and color monitor recommended.
TB000015	Computer Software	<i>Millie's Math House</i>	Designed to teach children through playful learning. Students will learn: counting, addition, subtraction, patterns, problem solving, size, geometric shapes and more. Six of seven activities have both an Explore and Discover Mode and Answer Mode, so children experience divergent and convergent thinking. For MAC & WIN-CD-ROM

<b>Category</b>	<b>Type</b>	<b>Title</b>	<b>Annotation</b>
<b>TB000033</b>	Computer Software	<i>Coin Critters (MAC)</i>	Software helps students develop a real sense of money by completing objectives that include recognizing the face value of coins; purchasing, matching and counting back change. Coin Critters will help build math recognition and thought-process skills. Printing features allow teacher to print work sheets and progress reports for individual student.
<b>TB000034</b>	Computer Software	<i>Mighty Math Calculating Crew</i>	Helps students master these important topics from third, fourth, fifth and sixth grade math curriculums: Problem solving & reasoning, money transactions, estimation & rounding, 1-4 digit addition & subtraction, 1-3 digit multiplication & division, 3D Geometry (solids & nets).
<b>TB000035</b>	Computer Software	<i>Mighty Math Carnival Count Down</i>	Helps students master these important topics from kindergarten, first & second grade math curriculums: problem solving & logic, place value (1's, 10's, 100's), addition & subtraction, sorting & classification, early multiplication & division.
<b>TB000036</b>	Computer Software (2 CD's)	<i>Millie's Math House</i>	Develop a love for math with Millie! Identify & compare shapes and sizes, create and complete patterns, learn numbers to 30, practice addition & subtraction, read number sentences, develop problem solving skills.
<b>TB000037</b>	Computer Software	<i>Mind Twister Math</i>	Engaging math review with a twist: increases math-fact fluency, strengthens mental math skills, improves computation, proficiency, develops higher order thinking skills, meets NCTM standards.
<b>TB000038</b>	MAC Software	<i>Access to Math</i>	Access to Math is a talking math worksheet program. It is a worksheet maker for teachers. For students with special needs, it is a multi-sensory learning tool with talking numbers and speech feedback. Program guides students through, addition, subtraction, multiplication & division problems step-by-step showing borrowing and carrying.
